

# GULF BREEZE

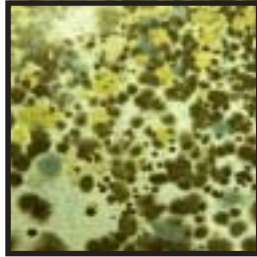

## ELECTROSTATIC AIR CLEANER

POLLEN

DUST

MOLD

BACTERIA

DUST MITES

### Removes Up To 89% Common Indoor Contaminants By Weight

- Permanent - Washable
- Sturdy Metal Frame
- Proven Effective on Pollen
- No Electrical Hook - Up Required
- No Ozone
- Excellent Replacement For Inefficient Disposable Air Filters
- Natural Filtration - No Oils or Adhesives
- Available in All Standard and Custom Sizes - 3/4" & 1" Thickness

The Gulf Breeze Electrostatic Air Cleaner operates on the simple principle of static electricity. It relies on the natural electrostatic attraction created by air flowing over the special Polypropylene media. Particles in the air stream become polarized and are drawn to the media.

No electrical connection is required to remove up to 89% by weight of Pollen, Dust, Mold, Pet Dander and other indoor pollutants.

The Gulf Breeze Electrostatic Air Cleaner has a .16 inch W.G. initial resistance at 300 FPM.

This filter has been tested by an Independent Testing Laboratory per ASHRAE 52.1 - 1992
